CONFIDENTIAL

Enclosed is a partially completed Cost Recovery

Documentation Checklist for the Martha C. Rose Site. Items 5, 6,

7, and 8 have been circled, please have them completed. We are requesting cost recovery information on this site and will be updating the information as the project progresses. George Hess. was the OSC for the site and should be most familiar with the contracts/contractors used on the activities at the site in the early phases of the operation. Once the Cost Recovery

Documentation checklist is completed it can be turned over to the Technical Analysis and Support section for action. If you have any questions concerning this please contact Steven Kinser.
